Brass Pickup Rates and Info

Dated: JANUARY 2017

Mixed Brass, with no steel/aluminum/trash/live rounds/ or .22 casings:

\$1.50 per pound

Mixed Brass, with no steel/aluminum/trash/shotgun hulls:

\$1.35 per pound

Mixed Casings, with steel/aluminum/trash/shotgun hulls:

\$1.26 per pound (for the brass in the mix)

Paid price for clean steel casings:

\$.08 per pound

Paid price for clean aluminum casings:

\$.11 per pound

Caliber sorted centerfire casings (other than 9mm):

\$1.55+ per pound (varies on calibers/quality)

Scrap/Unusable Brass (with no steel/aluminum/trash/live rounds):

\$1.28 per pound

Trade mixed brass for any FedArm product/credit:

\$1.65 per pound (or 8.3% over cash price)

Minimum drop is at 500 lbs. We will ask some details about the brass (i.e. its mix, its source, and its condition).

Freight is negotiable:

For small drops you cover cost, for medium drops we split the freight cost, and for steady 4,000+ lb. drops we can offer to cover freight.

We ask that you build up as much as possible before the drop. Our freight rates average around \$0.11 per pound.

Free pickup is offered around most of the AR, OK, MO area once a month via FedArm's trucking program.

If our rates are low, return your offer and we will put you on a secondary pickup list. Note the market is flushed with brass, and we must charge market rates to compete.

Ask us about trading brass for ammo and our range programs.
